adaptability, time management

PROFILE

I'm a third-year Web Development and Design student with a strong academic background, having achieved Distinctions in both my HNC and HND. I enjoy bringing creative ideas to life through clean, user-friendly websites, and I'm continuing to build my skills and knowledge as I complete my degree. My previous roles in customer service and administration have given me great communication, organisation, and problem-solving skills that I now apply to my studies and projects. I'm keen to grow as a developer and contribute fresh ideas, creativity, and enthusiasm to future opportunities.

WORK EXPERIENCE

☐ Career Break

2022- 2023

Family Commitments

I took time away from employment to raise my sons and manage family responsibilities. I continued my self-development through online learning and by staying up to date with digital trends. I have since returned to education and successfully achieved a distinction in both HNC and HND Web Development and Design.

☐ Euro Car Parts

2022 - 2022

Customer Service Advisor

I delivered excellent customer support in a fast-paced environment, developing strong communication and interpersonal skills. I managed queries, complaints, and requests efficiently, ensuring high customer satisfaction. I also developed resilience and multitasking skills by handling multiple cases simultaneously.
